

## Utility Evaluation Checklist

The information you are asked to provide will allow the City to reasonably evaluate the proposed development for consistency with the current utility master plans. During the evaluation process you may be contacted and asked to provide additional information to aid with finalizing the evaluation. Following the completion of the evaluation you will be provided with a qualified recommendation from staff regarding your request. If this request is a required component of a development application and any utility service will be requested for the development, submittal of this checklist should coincide with the completion of a Master Application Form.

Items Required for Submittal
